I added my comments on to Bob's

Deliberative Process / Ex. 5

Deliberative Process / Ex. 5

No comments on the tables, although I think we will need to discuss the format and number of case studies as we go forward.

Subject: RE: Innovations In Chemical Risk Assessment Weekly Meeting

Hi All – thanks for the great discussion this week! I’ve tried to capture the key points of our conversation in this revised version of the write-up. I’ve also added a few references, though please let me know if there are others we should add or if you think anything I suggested should be replaced by something else.

Also attached are:

1. The generic attributes table with the footnote about peer review.
2. A template for a case study table (I added Mary’s diesel example to the table, but the text still needs to be changed to make this example generic).

I’ve canceled our meeting next week since it overlaps with the ORD Awards Ceremony. Our next meeting is scheduled for Oct. 27.

Please send any comments, edits and suggests to the group by COB Monday, Oct. 24, so I can turn around a revised version for review by COB Tuesday.

Thanks!

Kacee Deener, MPH
